『HEAVEN SEEKER (Trial table display and video exhibition)

This title is a rogue-like shooting game. Set in a fantasy world, the player chooses one of several adventurers in search of hidden treasures to begin the search and challenge dungeons. The dungeon interior is randomly generated each time the player enters, so the player must be flexible. Players can freely combine more than 20 customizable items to create their own unique magic and explore the dungeon. The goal is to completely conquer the dungeon through repeated exploration.

*The game screen is a work in progress.
