SUCCESS Corporation (Headquarters: Shinagawa, Tokyo; CEO: YOSHINARI Takato) is pleased to announce the release of the new game 'Nurilogy 1000' on Nintendo Switch™ (Download Only).

### A logic puzzle with simple rules

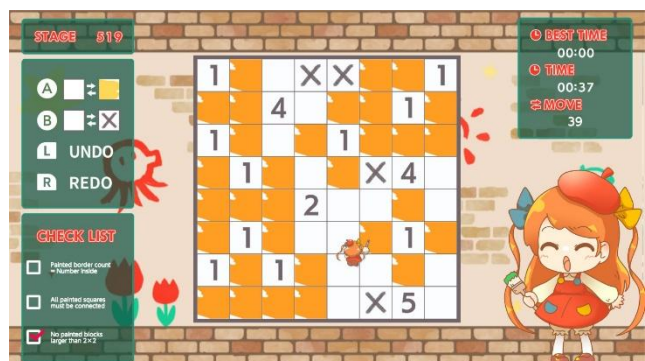

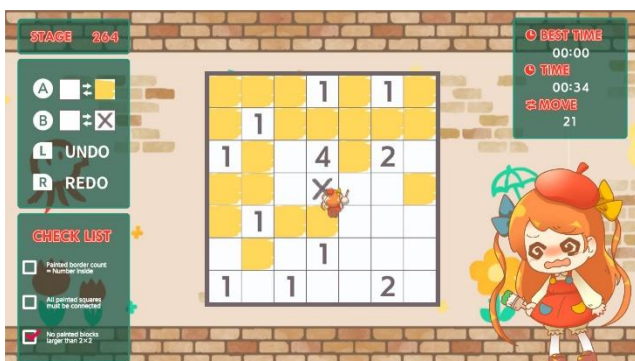

This game is a logic puzzle in which you fill in the squares using the numbers written on the board as clues.

Follow the rules below to fill in the "squares without numbers".

- The number on the board is the number of connected unfilled squares, and there should only be one number in any connected unfilled square.
- All filled squares must be connected.
- The painted squares may not form a block of more than 2 squares by 2 squares.

If you follow the rules and fill in the squares correctly, you clear the stage.

Solve puzzles and make the streets cute!
